

Spring Blessing Block of the Month – Updated 25th June 2020

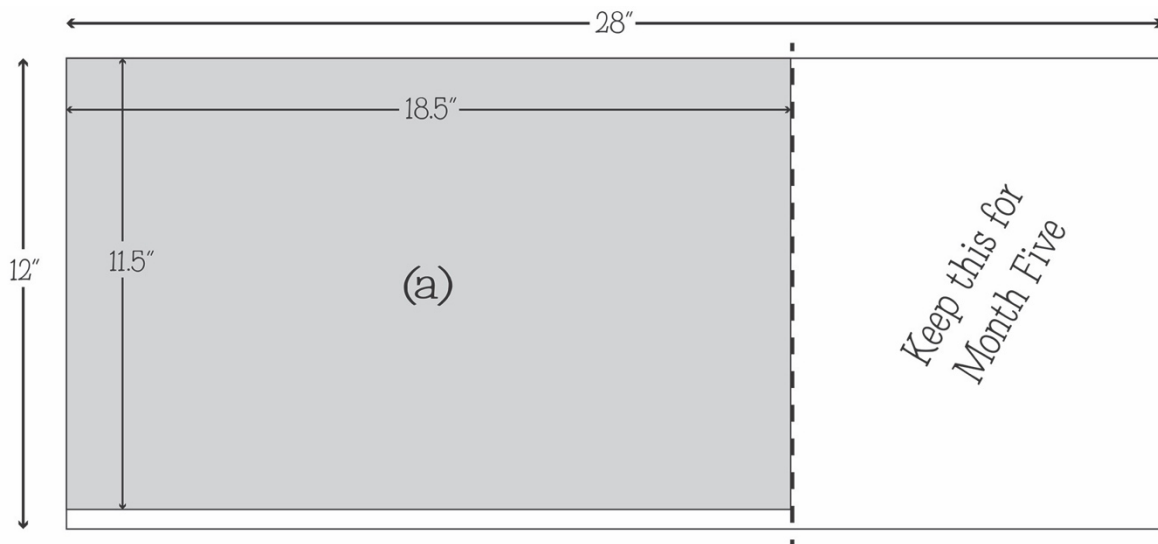

There is a fabric requirement error in Month Four – Background fabric.
This will only effect customers who receive their fabric in monthly instalments.

Those who have received full fabric kits upfront, can continue to cut from their background fabric and will remain unaffected.

If you have received your **fabric monthly**, please work through the following amendment to ensure that you still get the required pieces from your available fabric.
